**Certification of Actuarial Valuation  
County Employees' Retirement System  
Cash Balance Benefit Fund**

Ladies and Gentlemen:

This report summarizes the results of the actuarial valuation of the County Employees' Retirement System Cash Balance Benefit Fund as of January 1, 2012, performed by Buck Consultants, Inc.

The actuarial valuation is based on member data provided to us by the UNIFI Companies, recordkeeper for the plan, and unaudited financial information provided by Nebraska Retirement Systems as summarized in this report. The benefits considered are those delineated in Nebraska State Statutes, effective as amended January 1, 2012.

All costs, liabilities and other factors under the fund were determined in accordance with generally accepted actuarial principles and procedures, using actuarial cost methods which we believe are reasonable, and that follow the Nebraska State Statutes. This report fully and fairly discloses the actuarial position of the fund.

In our opinion, the actuarial assumptions used are reasonable, taking into account expected experience of the fund, and represent our best estimate of anticipated future experience. A summary of the actuarial assumptions used in this actuarial valuation are shown in Exhibit 10.

The contributions paid by the participating Cash Balance benefit members and the 150% matching County contributions and additional contributions for commissioned law enforcement officials defined by statute are more than sufficient to meet the actuarially required contribution which is equal to the sum of the annual normal cost and the annual payment necessary to amortize the unfunded liabilities over 25 years. The State is required to make any additional contribution necessary to meet the statutory funding requirement. For the 2013-2014 fiscal year, this additional amount is \$0.

We are available to answer any questions on the material contained in this report, or to provide explanations to further details as may be appropriate.

Respectfully submitted,

David H. Sliskinsky, A.S.A., E.A., M.A.A.A.  
Principal and Consulting Actuary

Douglas J. Fiddler, A.S.A., E.A., M.A.A.A.  
Director, Retirement Actuary

**SUMMARY OF ACTUARIAL REPORT FOR CONTRIBUTION REQUIREMENTS  
AND FUNDED STATUS FOR THE 2012 PLAN YEAR**

The main purposes of this report are:

1. To determine the level of additional State contributions for the fiscal year ending June 30, 2014 sufficient to meet the funding policy defined under Nebraska State statutes;
2. To review the current funded status of the Cash Balance benefit; and
3. To compare actual and expected experience under the plan year beginning January 1, 2011 and ending December 31, 2011; and
4. To quantify the contribution rate available for benefit improvements, if any.

The 2012 actuarial valuation is based upon the plan provisions as of January 1, 2012, as described in Exhibit 8. The actuarial methods and assumptions are described in Exhibits 9 and 10.

Highlights from the current valuation:

1. No additional State contribution is required for the 2013-2014 fiscal year to meet the actuarially required contribution. Expected member contributions and County contributions exceed the total funding requirement. The Reserve as of January 1, 2012, is \$5,164,079.
2. For the 2012 plan year, the actuarially required contribution is over 90% of the actual contributions. Therefore, a funding excess does not exist to provide benefit improvements during the 2012 plan year.
3. One measure of the funded status of the system is the ratio of the system assets over the Pension Benefit Obligation (PBO). The PBO is calculated using the Projected Unit Credit Method, which determines the benefit by using accumulated cash balance account values at the valuation date and projecting salary, contribution credits, and interest credits to assumed termination or retirement, and prorating the projected balances by service earned at the valuation date to service expected at termination or retirement. As of January 1, 2012, the funded percentage on Actuarial Value of Assets is 93.0%.

**NEBRASKA PUBLIC EMPLOYEES RETIREMENT SYSTEMS  
COUNTY EMPLOYEES' RETIREMENT SYSTEM  
CASH BALANCE BENEFIT FUND**

---

**SUMMARY OF ACTUARIAL REPORT FOR CONTRIBUTION REQUIREMENTS  
AND FUNDED STATUS FOR THE 2012 PLAN YEAR**

4. An asset loss was experienced on the Actuarial Value of Assets during the 2011 plan year. The rate of return on Actuarial Value of 2.82% fell short of the 7.75% assumed asset return rate by 4.93%, resulting in a decrease to the Actuarial Value by \$10,355,618. A decremental gain of \$3,648,099 was experienced on the actuarial accrued liability due to salary increases less than expected, fewer retirements and terminations than expected, and the actual interest credit rate of 5.0% was less than the assumed interest credit rate of 7.0%. The net actuarial loss for the year was \$4,714,594. As a result, the actuarial funding ratio declined from 93.2% as of January 1, 2011 to 91.9% as of January 1, 2012.
  
5. An investment loss was experienced on the Market Value of Assets during the 2011 plan year. The annual rate of return on Market Value was 0.00% for the year, falling short of the assumed investment return of 7.75% by 7.75%. As a result of this loss, the Market Value funded ratio on the Accumulated Benefit Obligation decreased from 89.3% as of January 1, 2011 to 85.9% as of January 1, 2012.

COUNTY EMPLOYEES' RETIREMENT SYSTEM  
CASH BALANCE BENEFIT FUND**

**EXECUTIVE SUMMARY**

**Basic Actuarial Valuation Results**

The 2012 actuarial valuation results are based upon the plan provisions as of January 1, 2012, as described in Exhibit 8. The actuarial methods and assumptions are described in detail in Exhibits 9 and 10, respectively.

**1. County Contribution**

The funding policy defined under State Statutes is for the counties to match the contributions paid by members at a rate of 150% of the member contribution, and for the State to make additional payments if necessary, to meet the actuarially required contribution. The actuarially required contribution is equal to the normal cost plus an amortization payment for unfunded liabilities. Unfunded liabilities created due to experience gains or losses, plan changes or assumption changes are amortized over 25 years.

The total expected County contribution for the 2012 plan year is \$13,393,553. Member contributions and matching County contributions are expected to exceed the total actuarially required funding.

Assets do not exceed the actuarial accrued liability as of the valuation date. As a result, the unfunded actuarial accrued liability is \$19,532,331. No additional payment from the State is required for the 2012 plan year.

<b>History of Expected County Contributions</b>			
<b>Plan Year</b>	<b>County Contribution</b>	<b>Additional Contributions</b>	<b>Total</b>
2004	\$ 4,092,294	\$ 0	\$ 4,092,294
2005	\$ 4,577,184	\$ 0	\$ 4,577,184
2006	\$ 5,949,740	\$ 0	\$ 5,949,740
2007	\$ 7,659,110	\$ 0	\$ 7,659,110
2008	\$ 9,524,951	\$ 0	\$ 9,524,951
2009	\$ 11,156,102	\$ 0	\$ 11,156,102
2010	\$ 12,316,843	\$ 0	\$ 12,316,843
2011	\$ 12,730,571	\$ 0	\$ 12,730,571

**NEBRASKA PUBLIC EMPLOYEES RETIREMENT SYSTEMS  
COUNTY EMPLOYEES' RETIREMENT SYSTEM  
CASH BALANCE BENEFIT FUND**

**EXECUTIVE SUMMARY**

**2. Asset Values**

The total assets of the system as of the valuation date at both market value and actuarial value is as follows:

	January 1, 2011	January 1, 2012	Annual Rate of Return
(a) Market value	\$ 200,042,882	\$ 208,729,170	0.00%
(b) Actuarial value, an adjusted value intended to reduce the effect of market fluctuations (See Exhibit 9)	\$ 206,036,302	\$ 220,662,783	2.82%

**3. Actuarial Liability/(Reserve)**

The actuarial liability of the system is the excess of the total benefit obligation (present value of future benefits) over the projected financial resources (sum of (i) the actuarial value of assets, and (ii) the present value of future member and matching County contributions). If the projected financial resources exceed the total benefit obligation, the system has a reserve. The actuarial position of the system as of the valuation date is as follows:

	January 1, 2011	January 1, 2012
(a) Present value of future benefits	\$ 404,691,141	\$ 433,902,230
(b) Actuarial value of assets	206,036,302	220,662,783
(c) Present value of future member contributions	83,352,148	88,163,570
(d) Present value of matching County contributions	<u>123,210,745</u>	<u>130,239,956</u>
(e) Actuarial liability/(reserve) [(a) – (b) – (c) – (d)]	\$ (7,908,054)	\$ (5,164,079)

**NEBRASKA PUBLIC EMPLOYEES RETIREMENT SYSTEMS  
COUNTY EMPLOYEES' RETIREMENT SYSTEM  
CASH BALANCE BENEFIT FUND**

**EXECUTIVE SUMMARY**

**4. Pension Benefit Obligation (PBO)**

The Pension Benefit Obligation represents a standardized disclosure measure of the present value of pension benefits payable in the future, which incorporates the effects of projected salary increases, based on service earned at the valuation date. The measure is intended to provide information regarding the Cash Balance Benefit's funded status on an ongoing-concern basis, progress made in accumulating sufficient assets to pay benefits when due, and comparability to other plans.

Funded Status	January 1, 2011	January 1, 2012
(a) Pension Benefit Obligation		
i) retirees, disabled members and beneficiaries receiving benefits and deferred vested members not yet receiving benefits	\$ 30,432,563	\$ 40,252,492
ii) active members	<u>187,710,323</u>	<u>196,964,819</u>
iii) total pension benefit obligation	\$ 218,142,886	\$ 237,217,311
(b) Assets available for benefits (actuarial value)	<u>206,036,302</u>	<u>220,662,783</u>
(c) Unfunded Pension Benefit Obligation	\$ 12,106,584	\$ 16,554,528
(d) Funded percentage on actuarial value of assets [(b) ÷ (a)(iii)]	94.5%	93.0%

**NEBRASKA PUBLIC EMPLOYEES RETIREMENT SYSTEMS  
COUNTY EMPLOYEES' RETIREMENT SYSTEM  
CASH BALANCE BENEFIT FUND**

**EXECUTIVE SUMMARY**

**5. Accumulated Benefit Obligation**

The accumulated benefit obligation represents another measure of the value of the benefits provided under the plan, based on the account balances and retiree benefits as of the valuation date. The measure is intended to provide information regarding the Cash Balance benefit's funded status on an immediate basis, progress on securing the current benefit obligation and comparability to similar individual account plans.

Funded Status	January 1, 2011	January 1, 2012
(a) Cash Balance Accounts		
i) Actives	\$ 193,682,645	\$ 202,662,869
ii) Inactives	<u>16,525,327</u>	<u>20,699,681</u>
iii) Total	\$ 210,207,972	\$ 223,362,550
(b) Retirees, disabilities, and beneficiaries	<u>13,907,236</u>	<u>19,552,811</u>
(c) Total accumulated benefit obligation	\$ 224,115,208	\$ 242,915,361
(d) Market Value of Assets	<u>200,042,882</u>	<u>208,729,170</u>
(e) Deficit/(Reserve) [(c) – (d)]	\$ 24,072,326	\$ 34,186,191
(f) Funded percentage on Market Value of Assets [(d) ÷ (c)]	89.3%	85.9%

**6. Benefit Accrual Cost**

The cost of benefits accruing over an active member's working career can be expressed as a level percentage of compensation. This cost represents the true cost of accruing benefits since it is not adjusted for any overfunding or underfunding which may exist on the valuation date. It is determined using the Entry Age Actuarial Cost Method and is also called the Normal Cost. The level benefit accrual cost determined at the valuation date is as follows:

	January 1, 2011	January 1, 2012
(a) Benefit accrual cost amount	\$ 17,929,476	\$ 18,828,589
(b) Annual compensation before assumed retirement age	\$ 178,524,655	\$ 187,664,923
(c) Benefit accrual cost rate [(a) ÷ (b)]	10.04%	10.03%

**NEBRASKA PUBLIC EMPLOYEES RETIREMENT SYSTEMS  
COUNTY EMPLOYEES' RETIREMENT SYSTEM  
CASH BALANCE BENEFIT FUND**

---

**EXECUTIVE SUMMARY**

**7. Forecast of Disbursements**

A forecast of the annual benefit disbursements expected over the next ten years is presented in Exhibit 7. This forecast is based on the same actuarial assumptions with respect to salary increases and decrement rates used to determine the funding requirements. The forecast should be a useful guide in discussing the cash-flow needs of the system with investment managers and in projecting the future financing needs of the system.

**8. Actuarial Methods and Assumptions**

The required contribution developed in this report is an estimate of the amount necessary to provide ongoing benefits to plan members assuming the system is funded in a systematic manner. These estimates are based upon the actuarial method defined under State Statutes to allocate the total cost of the Cash Balance benefit to various years and actuarial assumptions regarding the return on investments, salary rates, employee termination rates, mortality rates and other risk factors. The actuarial method used to determine the actuarial contribution requirement is the Entry Age Actuarial Cost Method.

The actuarial assumptions represent the expected long-term experience of the system on an explicit basis for each risk area considered. The experience is reviewed periodically. Where necessary, changes are recommended by the actuary and adopted by the Public Employees Retirement Board.

A summary of the actuarial methods and assumptions used in the current valuation is presented in Exhibits 9 and 10, respectively.

**9. Changes Since the Last Actuarial Valuation**

There have been no changes in the actuarial cost method, plan provisions, or actuarial assumptions since the last actuarial valuation as of January 1, 2011.

**ACTUARIAL GAIN/(LOSS)**

The actuarial gain/(loss) is comprised of both the liability gain/(loss) and the actuarial asset gain/(loss). Each of these represents the difference between the expected and actual values as of January 1, 2012.

<b>1. Expected Actuarial Accrued Liability</b>	
a. Actuarial Accrued Liability as of January 1, 2011	\$ 221,080,026
b. Normal Cost during 2011 Adjusted for Actual Pay and Transfers	18,480,671
c. Benefit Payments for Plan Year Ending December 31, 2011	13,057,416
d. Interest on a, b, and c to End of Year	<u>17,339,932</u>
e. Expected Actuarial Accrued Liability at January 1, 2012 [a + b - c + d]	\$ 243,843,213
2. Actuarial Accrued Liability at January 1, 2012	<u>240,195,114</u>
<b>3. Liability Gain/(Loss) [1e - 2]</b>	<b>\$ 3,648,099</b>
<b>4. Expected Actuarial Value of Assets</b>	
a. Actuarial Value of Assets as of January 1, 2011	\$ 206,036,302
b. Contributions and Transfers In During Plan Year	21,741,474
c. Benefit Payments During Plan Year	13,057,416
d. Interest on a, b, and c to End of Year	<u>16,298,041</u>
e. Expected Actuarial Value of Assets at January 1, 2012 [a + b - c + d]	\$ 231,018,401
5. Actuarial Value of Assets as of January 1, 2012	<u>220,662,783</u>
<b>6. Actuarial Asset Gain/(Loss) [5 - 4e]</b>	<b>\$ (10,355,618)</b>
<b>7. Contributions</b>	
a. Statutory Contribution	\$ 19,954,228
b. Actuarial Contribution Adjusted for Actual Pay	<u>18,034,312</u>
c. Excess Contribution [a - b]	\$ 1,919,916
d. Interest on c to End of Year	73,009
<b>8. Contribution Gain/(Loss) [c + d]</b>	<b>\$ 1,992,925</b>
<b>9. Actuarial Gain/(Loss) [3 + 6 + 8]</b>	<b>\$ (4,714,594)</b>

2021	24,955,806	1,629,939	26,585,745

**Note:** These amounts are based on the assumption members terminating before reaching retirement eligibility will elect a lump sum distribution of their cash balance account. Members eligible for retirement will elect a monthly annuity, payable for life with five years certain. Deferred vested and nonvested members are excluded from the disbursements.

**NEBRASKA PUBLIC EMPLOYEES RETIREMENT SYSTEMS**  
**COUNTY EMPLOYEES' RETIREMENT SYSTEM**

---

***SUMMARY OF PLAN PROVISIONS***

**Membership**

All permanent full-time employees of a participating County shall begin immediate participation in the County Employees' Retirement System as of January 1, 2007, or date of hire if later, and all permanent part-time employees who have attained the age of 25, may exercise the option to begin immediate participation in the County Employees' Retirement System. Full-time elected officials shall begin participation upon taking office.

Existing members of the County Employees' Retirement System may elect, during the period beginning November 1, 2007 and ending December 31, 2007 to participate in the Cash Balance benefit. If no election is made by December 31, 2007, the member shall be treated as though he or she elected to continue participating in the defined contribution benefit as provided in the County Employees' Retirement Act.

Existing members of the County Employees' Retirement System may elect, during the period beginning October 1, 2002, and ending December 31, 2002, to participate in the Cash Balance benefit. If no election is made by January 1, 2003, the member shall be treated as though he or she elected to continue participating in the defined contribution benefit as provided in the County Employees' Retirement Act. For a member who first participates in the retirement system on or after January 1, 2003, he or she shall automatically participate in the Cash Balance benefit subject to plan eligibility requirements.

**Compensation Considered**

Compensation means gross wages or salaries payable to the member for personal services performed during the plan year, overtime pay, member retirement contributions, and amounts contributed by the member to plans under sections 125, 403(b) and 457 of the Internal Revenue Code or any other section of the code which defers or excludes such amounts from income.

**Member Contributions**

Members of the County retirement system shall contribute an amount equal to four and one-half percent (4.5%) of annual compensation to the fund. The member contribution shall be credited to the employee cash balance account. In addition, commissioned law enforcement personnel shall contribute an extra amount equal to one percent (1%) of annual compensation if their county's population is less than 85,000 and an extra two percent (2%) of annual compensation if their county's population is more than 85,000.

**Employer Contributions**

The participating counties shall contribute at a rate of 150% of the members' contributions to the fund. The County contribution shall be credited to the employer cash balance account. The participating counties will also match the additional contribution amount made by commissioned law enforcement personnel at a rate of 100%.

**NEBRASKA PUBLIC EMPLOYEES RETIREMENT SYSTEMS**  
**COUNTY EMPLOYEES' RETIREMENT SYSTEM**  
**CASH BALANCE BENEFIT FUND**

---

***SUMMARY OF PLAN PROVISIONS***

**Interest Credit Rate**

Interest credit rate means the greater of (a) five percent or (b) the applicable federal mid-term rate as published by the Internal Revenue Service as of the first day of the calendar quarter for which interest credits are credited, plus one and one-half percent, such rate to be compounded annually.

**Interest Credits**

Interest credits means the amount credited to the employee cash balance account and the employer cash balance account at the end of each day. Such interest credit for each account shall be determined by applying the daily portion of the interest credit rate to the account balance at the end of the previous day.

**Retirement Age**

A member is eligible for retirement after attaining age 55.

**Service**

Service is defined to mean the actual total length of employment with a participating County and is not interrupted by a) temporary or seasonal suspension of service that does not terminate the member's employment, b) leave of absence authorized by the state for no longer than twelve months, c) leave of absence due to disability or d) leave due to military service.

**Retirement Allowance**

Upon attainment of age 55, regardless of service, the retirement allowance, shall be equal to the accumulated employee and employer cash balance accounts including interest credit, annuitized for payment in the normal form. Also available are additional forms of payment allowed under the plan which are actuarially equivalent to the normal form including the option of a lump sum or partial lump sum.

**Normal Form of Payment**

The normal form of payment under the Cash Balance benefit is a single life annuity with five-year certain, payable monthly. Members will have the option to convert their member cash balance account to a monthly annuity with built in cost-of-living adjustments of 2.5% annually. This monthly benefit and all other options allowed under the Plan will be of actuarial equivalence to the accumulated employee and employer cash balance accounts including interest credits.

**Optional Form of Payment**

Optional forms of payment include a lump sum and the following annuities (with or without a 2.5% COLA): life annuity, modified cash refund, certain and life annuity (5, 10 or 15 years), certain only annuity (5, 10, 15 or 20 years) and joint and survivor annuity (50%, 75% or 100%).

**NEBRASKA PUBLIC EMPLOYEES RETIREMENT SYSTEMS**  
**COUNTY EMPLOYEES' RETIREMENT SYSTEM**  
**CASH BALANCE BENEFIT FUND**

---

***SUMMARY OF PLAN PROVISIONS***

**Deferred Vested Allowance**

A member who terminates with at least 3 years of participation in the system, including eligibility and vesting credit, may choose to leave his employee and employer cash balance accounts in the fund and be eligible to receive a vested monthly allowance at retirement age or request a distribution of his employee and employer cash balance accounts plus interest credit, with no future benefit payable from the plan.

**Severance Benefits**

A member who terminates with less than 3 years of participation in the system, including eligibility and vesting credit, may elect to receive a distribution of his/her employee cash balance account including interest credit, with no future benefit payable from the plan.

**Disability Allowance**

If a member becomes disabled prior to retirement, the member shall receive the total amount of his/her accumulated employee and employer cash balance accounts including interest credit, as a lump sum or converted into a monthly annuity, as defined under the retirement allowance.

**Pre-retirement Death Allowance**

If a member dies prior to retirement, the surviving spouse, designated beneficiary (if different), or estate shall receive the total amount of his/her accumulated employee and employer cash balance accounts including interest credit, as a lump sum or converted into a monthly annuity, as defined under the retirement allowance.

**Defined Contribution Transfers at Retirement**

Upon retirement, members participating in the Defined Contribution Benefit Fund may elect to annuitize their accumulated account balance and receive a monthly benefit payment from the Cash Balance Benefit Fund. The accumulated account balance is transferred from the Defined Contribution Benefit Fund to the Cash Balance Benefit Fund upon the retirement of a DC member electing an annuity. The actuarial assumptions used to convert the accumulated account balance are (i) the 1994 Group Annuity Mortality Table with a 50% male / 50% female mix, and (ii) the PBGC Table 2 rate at the beginning of the year plus 0.75%.

**Benefit Improvements**

In accordance with Section 23-2317 of the Nebraska State Statutes, the Public Employees' Retirement Board may grant benefit improvements, but in no event will such improvement result in an actuarially required contribution rate in excess of 90% of the total statutory contribution rate.

**SUMMARY OF ACTUARIAL METHODS AND PROCEDURES AS OF JANUARY 1, 2012**

**A. ACTUARIAL METHODS**

- 1. Calculation of Normal Cost and Actuarial Accrued Liability:** The method used to determine the normal cost and actuarial accrued liability was the Entry Age Actuarial Cost Method described below.

**Entry Age Actuarial Cost Method**

Projected pension benefits were determined for all active members under age 70. Cost factors designed to produce annual costs as a constant percentage of each member's expected compensation in each year from the assumed entry age to the assumed retirement age were applied to the projected benefits to determine the normal cost (the portion of the total cost of the plan allocated to the current year under the method). The normal cost is determined by summing intermediate results for active members under age 70 and determining an average normal cost rate which is then related to the total payroll of active members under age 70. The actuarial assumptions shown in Exhibit 9 were used in determining the projected benefits and cost factors. The actuarial accrued liability for active members (the portion of the total cost of the plan allocated to prior years under the method) was determined as the excess of the actuarial present value of projected benefits over the actuarial present value of future normal costs.

The actuarial accrued liability for retired members and their beneficiaries currently receiving benefits, active members age 70 and over, terminated vested members and disabled members not yet receiving benefits was determined as the actuarial present value of the benefits expected to be paid. No normal costs are now payable for these members.

The actuarial accrued liability under this method at any point in time is the theoretical amount of the fund that would have been accumulated had annual contributions equal to the normal cost been made in prior years (it does not represent the liability for benefits accrued to the valuation date). The unfunded actuarial accrued liability is the excess of the actuarial accrued liability over the actuarial value of plan assets measured on the valuation date. The unfunded actuarial accrued liability is funded with a level dollar payment amount over 25 years from January 1, 2012.

Under this method, experience gains or losses, i.e., decreases or increases in accrued liabilities attributable to deviations in experience from the actuarial assumptions, adjust the unfunded actuarial accrued liability.

**COUNTY EMPLOYEES' RETIREMENT SYSTEM**  
**CASH BALANCE BENEFIT FUND**

---

***SUMMARY OF ACTUARIAL METHODS AND PROCEDURES AS OF JANUARY 1, 2012***

**2. Calculation of the Actuarial Value of Assets:** Effective January 1, 2003, the actuarial value of assets was initialized at Market Value and equals the sum of the employee and employer cash balance accounts. In future years, the actuarial value of assets will be based on a five-year smoothing method with phase-in and is determined by spreading the effect of each year's investment return in excess of or below the expected return. The Market Value of assets at the valuation date is reduced by the sum of the following, each determined after January 1, 2003:

- (i) 80% of the return to be spread during the first year preceding the valuation date.
- (ii) 60% of the return to be spread during the second year preceding the valuation date.
- (iii) 40% of the return to be spread during the third year preceding the valuation date.
- (iv) 20% of the return to be spread during the fourth year preceding the valuation date.

The return to be spread is the difference between (1) the actual investment return on Market Value and (2) the expected return on Actuarial Value. The expected return on Actuarial Value includes interest on the previous year's unrecognized return.

**3. Calculation of Pension Benefit Obligation:** The method used to determine the Pension Benefit Obligation was the Projected Unit Credit Actuarial Cost Method with service proration. Under this method, the benefit is based on salary projected to assumed termination or retirement and service as of the valuation date.

**B. VALUATION PROCEDURES**

No actuarial liability is included for participants who terminated without being vested prior to the valuation date, except those due a refund of the cash balance account.

The compensation amounts used in the projection of benefits and liabilities for active members were prior plan year compensations.

Projected benefits were limited by the dollar limitation required by the Internal Revenue Code Section 415 as it applies to governmental plans and compensation limited by Section 401(a)(17).

COUNTY EMPLOYEES' RETIREMENT SYSTEM  
CASH BALANCE BENEFIT FUND**

**SUMMARY OF ACTUARIAL ASSUMPTIONS AS OF JANUARY 1, 2012**

4. Disability

Graduated rates for all disabilities by age.

<b>Age</b>	<b>Annual Rate Per 1,000 Members</b>
20	0.20
25	0.30
30	0.40
35	0.80
40	1.80
45	3.50
50	6.30
55	10.30
60	15.60
65	21.70
70	25.70

**OTHER ASSUMPTIONS**

1. Payment Assumptions

As shown in the table below, 100% of all members eligible for retirement are assumed to be paid in the form of an annuity and 100% of members eligible for all other types of benefits are assumed to be paid in the form of a lump sum. Deferred vested and nonvested members are assumed to take a refund of their account balance as of the valuation date.

<b>Benefit</b>	<b>Assumed Form of Payment</b>
Retirement	Annuity*
Vested	Lump Sum
Nonvested	Lump Sum
Disability	Lump Sum
Death	Lump Sum

\*Five-year certain and life annuity.

2. Cost of Living Adjustment

None assumed, except 2.5% per year is used for retirees electing annuity payments with a COLA feature.

***GLOSSARY OF TERMS***

<i>Actuarial Accrued Liability</i>	Total accumulated cost to fund pension benefits arising from service in all prior years.
<i>Actuarial Cost Method</i>	Technique used to assign or allocate, in a systematic and consistent manner, the expected cost of a pension plan for a group of participants to the years of service that give rise to that cost.
<i>Actuarial Present Value of Future Benefits</i>	Amount which, together with future interest, is expected to be sufficient to pay all future benefits.
<i>Actuarial Valuation</i>	Study of probable amounts of future pension benefits and the necessary amount of contributions to fund those benefits.
<i>Actuary</i>	Person who performs mathematical calculations pertaining to pension and insurance benefits based on specific procedures and assumptions.
<i>Annual Required Contribution</i>	Disclosure measure of annual pension cost.
<i>GASB 25 and GASB 27</i>	Governmental Accounting Standards Board Statement numbers 25 and 27 which specify how the Net Pension Obligation and Annual Required Contribution are to be calculated.
<i>Normal Cost</i>	That portion of the actuarial present value of benefits assigned to a particular year in respect to an individual participant or the plan as a whole.
<i>Unfunded Actuarial Accrued Liability</i>	The portion of the actuarial accrued liability not offset by plan assets.
<i>Vested Benefits</i>	Benefits which are unconditionally guaranteed regardless of employment status.
